MONEY, BONDS AND STOCKS.

Less Activity in New York, but Nearly All Stocks Are Fractionally Higher. NEW YORK, Sept. 5.-Money on call was easy at 2@21 per cent., the last loan being made at 2, closing offered at 14.

Prime mercantile paper, 41 061 per cent. Sterling exchange was dull but steady and

unchanged. The total sales of stocks to-day were 241,932 shares, including the following: Delaware. Lackawanna & Western, 17,730; Erie, 30,000; Lake Shore, 3,830, Louisville & Nashville, 5,604; Missouri Pacific, 8,881; Northwestern, 3,060; New Jersey Central, 5,525; Norfolk & Western preferred, 5,962; Northern Pacific preferred, 11,220; Ohio & Mississippi, 4,920; Oregon Transcontinental, 13,575; Reading, 42,800; Richmond & West Point, 3,670; St. Paul, 13,455; Texas Paeifie, 3,495; Union Pacific, 6,230; Western

Union, 13,907. The stock market was less active to-day, and while generally strong throughout the day, was subjected to several fractional set-backs, which gave it a somewhat unsettled appearance. "The result of the day's trading, however, is to leave most all the active list materially higher than last evening. Altogether, there was much less go to the dealings, but London was still a purchaser and the demand for stocks continued. which steadily advanced quotations, though the interest was centered in a few stocks more than usual of late. The Erie securities were more prominent than for some time and the buying in the stock more spirited, which may have been helped by the statement, which was considered quite favorable. The most marked movement among the active list, however, was in Missouri Pacific, which, while less active than many of the list, was bid up by a few brokers and its price well maintained to the last. Most of the stocks which have been prominent of late, such as Union Pacific, St. Paul, Western Union, the Coal stocks and the Northern Pacific group were all active, but the dealings developed no special feature. Among the low-price shares Ohio & Mississippi was conspicuous for both strength and activity, the splendid trops along the line of the road being given as the stimulating cause for the new demand. Chesapeake & Ohio and Nortolk & Western prelerred were also conspicuous. First prices this morning were generally firm to strong, and the market moved up steadily during most of the first hour, with Missouri Pacific and Eric in the lead. Many of the list reached their highest prices at this fime, but others, more sluggish, were brought up later. After 11 o'clock the market was irregular to its movements, alternately strong and weak, until the last bour, when a report that the Secretary of the Treasmry had accepted a large amount of bonds gave speculation a lift, and, with more animation. prices again moved up, and the close was fairly active and strong at or near the highest prices of the day. Almost the entire active list is higher this evening, though the advances, in most cases, are confined to small fractions, but Missouri Pacific rose 13, Jersey Central and Norfolk & Western preferred 13, and Hocking Valley 1 per cent.

Railroad bonds were more active to-day, and stronger, and, although there were a few issues which, as usual, monopolized the attention of buyers, the upward movement extended to the entire list, and final changes this evening are almost invariably in the direction of higher figures. The total sales were \$1,759,000, out of which \$432,000 were in Erie seconds and \$147,-000 in Reading second incomes. The third incomes were also active, and contributed \$130,000. Government bonds were dull and steady. State bonds were duli and without feature.

CHICAGO, Sept. 5 .- If any one was disappointed in the action of the wheat market at the regular session to-day, it was the person who anticipated something decisive. On the whole this was the quietest day in the wheat pit since the price got above 90 cents. It was not dull, for the pit was filled and a fair volume of trading was done without any one getting hurt or making a fortune. The outside range, until near the close, was le, which made a fair deal. The Chicago market had the distinction of being the strongest in the country. Cables were conflicting on European weather, and agreed on firm but quiet markets abroad. Returns from expers in the Northwest were encouraging to the "bulls." At New York there was a waiting market-waiting for the "longs" to unload. Here the "longs" did unload quite freely early, and put December from 942 @941c, and when the market did not break with the weight the trade turned buyers and put the price up to 95 c. Between 94 c and 95c there was a contest during the closing hour, and at ten minutes before the close the "bears' succeeded in pounding the price to 94tc; Octo-ber sold between 93c and 93tc, and May at 98t @ 99tc. Wheat closed at 1 P. M. at 94to for December. This was to over the bottom for the day, and se under last night. The corn pit was very thinly settled, and those present were not over eager to do business. The trading for the day was the lightest for weeks. The prices appeared to keep up because of no offering rather than because of any bullish feeling. The low temperature led operators to keep what they have, and there was nothing to disturb prices. September sold at 44 244 c; October at 44; 244jc, closing at 44jc, with December at 29jc, and May at 39jc to close. Oats were quiet, with very little in the situation to stir speculation. September closed at 24jc; October sold a fraction higher, closing at 24te, and May at 28tc. Opening figures on provisions were not far from last night's close, and the range was a narrow one all around throughout the long session. There was not much that was notable in the market. Receipts much that was notable in the market. Receipts of hogs continue light and values at the yards to-day were unchanged. October pork ranged at \$14.32\frac{1}{20}\$ 14.42\frac{1}{2}\$, closing at \$14.35\$, a decline from yesterday of 7\frac{1}{2}c, while January rested higher. Lard held fairly steady, closing at 9.82\frac{1}{2}c for October, or slightly below last night, though January closed .02\frac{1}{2}c better, the same gain being recorded in January ribs. October ribs lost .05c, closing at 8.52\frac{1}{2}c at 1 o'clock. On the afternoon board, October wheat closed \frac{1}{2}c lower afternoon board, October wheat closed to lower than at 1 o'clock; September, ic lower. Corn was 1@1c lower. Oats were unchanged. Pork was 5@71c lower. Lard was unchanged, and short ribs .021c lower. The leading futures

MINNEAPOLIS, Sept. 5.—Local receipts were but 106 cars for the day, the Manitoba bringing in only 32 cars, against 117 yesterday. This was said to be due to the strike at St. Cloud. Sample tables dis-played but little old wheat, and the demand for new seems to have died away somewhat. Sellers are asking yesterday's figures for milling wheat, but found it difficult to dispose of wheat at the same prices. INDIANAPOLIS MARKETS.

Trade Taking on a Good Deal of Animation -Prices Strong on All Leading Articles. INDIANAPOLIS, Sept. 5.

In all departments to-day there was a brisk trade in progress, and as a rule, a firm and strong tone to prices. The dry goods houses were busy, a number of good buyers were in, and mail orders were large. The firm tone to prices induces retail merchants to stock up more liberally than when fluctuations in values are numerous and uncertainty as to futures prevails. Cotton goods rule usually firm, and, with the advance in the price of wool, woolen goods are tending upward in price. Manufacturers are so well sold up that they have the advantage. Grocers had a busy day. Sugars move up another tof a cent, and coffees rule strong and slight advances are indicated. Other groceries are firm and steady. Firmness is a characteristic of both the iron market and that of tinners' supplies. The hide market is active enough, but the failure of prices to improve with the increasing activity hangs as a cloud over the market. Commission men were busy to-day. Receipts of peaches, apples and pears liberal, but fully as good prices were realized as could be obtained any day last week, Saturday excepted. Butter is more plenty, and to meet with quick sale must be really choice. Eggs firm on a good demand. Poultry steady, still prices are weak in tendency, and lower prices are likely to pre-vail in the near future. The seed market is active. Sales of timothy large, and there is a good deal of inquiry for seed wheat.

GRAIN. There were no points of interest in the local market to-day. The attendance on 'Change was fair, but bidding tame, prices ruling as follows: Wheat-No. 2 Red...... 92 No. 3 Red Rejected..... September 92
